## Liberty SC50 UVGI – Autonomous stand on scrubber dryer

**Experience all Liberty SC50 benefits plus the best UV-C disinfection technology to maximize your hygienic standards**

- UV-C light is germicidal, meaning it damages the DNA of bacteria, viruses, and other pathogens, thereby preventing them from multiplying and causing diseases.
- The UV-C attachment is located at the rear of the SC50, directly behind the scrubber.
- UV-C light is emitted directly at the floor, in close proximity and at a dosage level that targets coronavirus and other pathogens.
- UV-C light is confined to the floor beneath the SC50, designed for safe operation around people.
- The Liberty SC50's UV-C fixture is compliant with all applicable safety standards, including third party certification.

Meet the Nilfisk Liberty SC50 UVGI autonomous scrubber-dryer, combining Robotic Floor scrubbing with UVGI (ultraviolet germicidal irradiation) technology to maintain the highest level of cleanliness in your facility.

TECHNICAL DATA	Liberty SC50 UVGI	Liberty SC50 UVGI
Voltage (V)	24	24
Gross weight (gvw) (kg)	484.4	484.4
Battery capacity (mAh)	255	255
Max. theoretical productivity (m <sup>2</sup> /hr)	1,936	1,936
Max. transport speed - manual Fwd. (kph)	5.0	5.0
Max transport speed - manual rev. (kph)	2.6	2.6
Max. transport autonomous (m/s)	1.055	1.055
<b>FEATURES</b>		
Autonomous operation	•	•
